Employment Opportunity
Two Post-Doctoral Associate Positions in Digital Government for 2015-2016

The Center for Technology in Government (CTG) at the University at Albany, State University of New York is pleased to announce that up to two Postdoctoral Associates in Digital Government will be hired for a one-year period starting on or before September 1, 2015.

The two positions are 12 month, state funded positions with the possibility of renewal dependent on success, progress, and availability of future funding. CTG invites applications from emergent researchers with a record of scholarly publications in the fields of public administration and digital government, broadly defined. Each Postdoctoral Associate will be required to teach one MPA or undergraduate course per semester. Appointees will be affiliated with a NASPAA-accredited public administration program that is ranked 3rd nationally in Information Technology Management by US News & World Report. The salary range of the Postdoctoral Associate position is $40,000-$45,000, dependent on experience. The Postdoctoral Associates in Digital Government will be selected based on their qualifications and how their proposed research can contribute to the Center's research agenda. Review of applications will begin immediately and will continue until the positions are filled.

Requirements

1. Candidates must hold an earned PhD preferably in public administration, digital government. Other related PhDs within the social sciences will be considered.
2. Candidates may not have been professionally employed in their specialty subsequent to their receiving their doctoral degree.
3. Scholars who received their PhD after January 1, 2013 or who will have completed all PhD degree requirements by July 15, 2015 will be eligible to apply.
4. Applicants who do not have the PhD in hand at the time of application must include a letter from their Chair specifying the date of the dissertation defense.
5. Experience with, and/or interest in, teaching students with diverse cultural backgrounds.
6. Experience in research projects using socio-technical views and rigorous research designs. Topics of interest include, but are not limited to: information policy and management, government IT and public value, information sharing, smart cities, open government, policy informatics and data analytics, mobile government, and broadband.

Successful applicants who do not complete all requirements for their PhD by July 15, 2015, will have their candidacy or offer of a position withdrawn.

To Apply

To ensure full consideration, candidates should submit a letter of interest (including research and teaching interests), curriculum vitae, teaching evaluations, and a list of four references via email to G. Brian Burke, bburke@ctg.albany.edu, by April 30, 2015.

More Information about the Center and Rockefeller College at University at Albany
