

Mission

The mission of the Center for Technology in Government at the University at Albany is to foster public sector innovation, enhance capability, generate public value, and support good governance.

We carry out this mission through applied research, knowledge sharing, and collaborative problem solving at the intersection of policy, management, and technology.

The results generated by each project add to a growing knowledge base designed to support the work of both government professionals and academic researchers. Our guides, reports, and tools are freely available on our Publications page.
