CTG Director among Government Technology's top 25 Doers, Dreamers and Drivers

CTG Director Sharon Dawes is one of 25 men and women named by Government Technology as leaders who "showed that change in government is possible, despite the age-old belief that institutional barriers impede government reform." Dawes is honored for pioneering digital government through partnerships and research that focus on how technology can change the way government works, collaborates, and shares information.

Read about all the honorees at: <http://www.govtech.net/magazine/story.php?id=93222>

CTG Receives \$800,000 for Digital Preservation Work with State Governments and the Library of Congress

Beginning next month, CTG will be working with the Library to develop and deploy a toolkit to help states and territories identify and preserve digital government. The toolkit will assist state teams to assess and improve their digital preservation capabilities and develop action plans for preserving specific digital content. All 50 states and territories will be invited to participate as part of the National Digital Information Infrastructure and Preservation Program (NDIIPP).

For Library of Congress information on NDIIPP, see <http://www.DigitalPreservation.gov>

CTG Research Discussion Breakfast Series

On **Wednesday, April 13th from 8:30 to 9:30 a.m.**, we will host the 4th in a series of Discussion Breakfasts about CTG's ongoing research. CTG Program Manager Meghan Cook will present **Exploring State-Local Networks and Relationships**, and lead a discussion about lessons learned, best practices, and strategies for effective intergovernmental relations. The Research Breakfast Series is offered at CTG's office located at 187 Wolf Road, Albany, Suite 301.

To sign up, register at <http://www.ctg.albany.edu/about/breakfasts2>.
