XML Training

On January 27th and February 17th, the Center is hosting hands-on workshops called "Redesigning Your Web Site Using XML." Workshop participants will begin to design and develop an XML-based Web site. They will learn through practice the basic structure and coding of XML pages as related to overall Web site design.

A class outline can be downloaded from our Web site at www.ctg.albany.edu/static/xmlclass/NewClassOutline.pdf. A registration form can be downloaded at www.ctg.albany.edu/static/xmlclass/regjan27.pdf.

Employment Opportunities

We are accepting applications for two administrative assistants to provide project support and maintain smooth administrative operations. For more information, visit <http://www.ctg.albany.edu/about/about?sub=employment>.
