### CTG Seeks Post-Doctoral Research Associate position

We are seeking candidates for a Post-Doctoral Research Associate position for the Modeling Interorganizational Information Integration Project, a two-year research activity funded by the National Science Foundation. The Post-Doctoral Research Associate will work as part of a team with the Principal Investigators of the project in managing the design and execution of field research, model building, and coordination of project activities with other Center work.

### CTG Director Dawes to participate in North America Day

Sharon Dawes will take part in the Fourth Annual North America Day conference next week for a meaningful and candid discussion of e-gov issues that are common to the U.S., Mexico, and Canada. The U.S. delegation will be led by Mark Forman, Associate Director for Information Technology and Electronic Government in the U.S. President's Office of Management and Budget. The Canadian delegation will be headed by Michelle d'Auray, Chief Information Officer for the Treasury Board of Canada Secretariat. The Mexican delegation will be led by Abraham Sotelo, Coordinator of the eGovernment Project in the Mexican President's Office for Innovation in Government.
