Open Government Portfolio Public Value Assessment Tool
Apr 2011

The Open Government Portfolio Public Value Assessment Tool (PVAT) offers government leaders with an approach to making better informed decisions about their portfolio of open government initiatives. This tool provides a structured way to assess the public value of an initiative so that an agency can review the expected public value across their entire portfolio of open government initiatives. The information generated from using this tool can then support decisions about the mix of initiatives in a portfolio and how to adjust the mix to enhance the agency’s public value.

The XML Toolkit
Apr 2006

The XML Toolkit is a Web site product of CTG’s Web Site Management Using XML: A Testbed Project, which served to assist New York State agencies in examining the benefits as well as the challenges of Web site management using the emerging technology of XML. It contains a library of XML resources and is intended to grow over time and benefit from the contributions of the online community.

Jan 2004

Governments around the world are experimenting with public service delivery systems that rely on cross-boundary collaboration among government agencies or between government and the private and non-profit sectors. This guide focuses on the key elements of these new working arrangements of particular importance to the people who will design and manage them.
